Objective

I can leverage my skills in Python, SQL, Excel and data visualization to solve complex business problems. I aim to deepen my knowledge of data engineering and machine learning techniques while contributing to the success of data-driven projects that enhance decision-making and operational outcomes."

Education

Bachelor's degree in Biomedical Engineering | Sep 2016 - Jan 2022

Faculty of Biomedical Engineering, HTI University.

Grade: Good.

Graduation project: Voice-Controlled Wheelchair

Grade: Excellent.

Experience and Internships

Inten Big Data (Orange Digital Center) | JAN 2025-Present.

- Assisted in processing and analyzing large-scale datasets using Apache Spark and Spark.
- Worked with Hadoop (HDFS, MapReduce) for distributed data storage and processing.
- Developed ETL pipelines using Airflow to automate data workflows.
- Managed and optimized queries in SQL (PostgreSQL, Microsoft SQL Server) for Big Data analytics.

Inten Machine Learning Engineer (Instant) | APR 2024-JAN 2025.

- Assisted in building predictive models and conducting data preprocessing tasks using Python and Scikit-learn.
- Performed exploratory data analysis (EDA) to uncover trends and patterns in Large Dataset.
- Developed dashboards and visualizations in Power BI to present data insights to Stakeholders.

Intern Data Analyst (Accelerate Company) | Oct 2024- Dec 2024

- During my internship at Accelerate, I gained hands-on experience in data analysis and engineering,
- Analyzing and processing large datasets using Python and SQL, ensuring data integrity and accuracy
- Leveraging data visualization tools like Power BI and Seaborn to create insightful reports and dashboards for business stakeholders.
- Conducting exploratory data analysis (EDA) to uncover patterns, anomalies, and actionable insights.

Certifications

Machine Learning Nanodegree Udemy

Apr-2020

Skills

Technical Skills

- **Scripting:** Python.
- **Data Manipulation and Preprocessing:** NumPy, Pandas, SQL
- **Visualization:** Seaborn, Matplotlib, Power Bi (business intelligence tools), Excel
- **Data Engineering:** ETL Processes Extract, Transform, Load (ETL) processes for integrating data from different sources into a single data warehouse.
- **Big Data Tools:** Knowledge of handling large datasets using frameworks Hadoop.
- **Cloud Computing:** Familiarity with cloud services Azure.
- **Model Deployment and Production:** Fast API Frameworks for building APIs to deploy machine learning models.

Soft Skills

- Communication.
- Problem-Solving.
- Time Management.
- Hard Worker.
- Critical Thinking.
- Attention to Detail.
- Storytelling with Data.
